- CSS
- JavaScript (Angular)
- Python
- Git
- Algorithm Design
- Technical Writing
- Data Analysis
- Interpersonal Communication
- Patience

CERTIFICATIONS

- AWS
- CSM

CAREER SUMMARY

Dedicated and well-rounded software engineer with a passion for math, computer science, and elite education. Bringing 12+ years of teaching expertise to help Amazon's Career Fulfillment students feel the same joy and pride in my comprehensive JavaScript computer science program as my past 150+ high school students. Eager to teach the basics, get students the tools they need, and foster their passion to reach their goals.

WORK EXPERIENCE

Computer Science Teacher

Princeton International School of Mathematics and Science
- 📅 2017 - current
- 📍 Princeton, NJ

- Coordinated meetings with 13 program leadership staff to determine new objectives for the computer science program
- Assisted with the development and implementation of 20+ new program protocols, procedures, and operating policies
- Lectured and supervised intellectual development of 1,000+ undergraduate student(s) in 3+ classes
